PROFESSIONAL EXPERIENCE

Project & Delivery Associate

May 2024 – Feb 2026

iCover Insure Tech

- Managed 20+ US-based insurance client, owning the complete product lifecycle from requirements gathering to post-production support.
- Served as primary SPOC for clients, handling delivery commitments, escalations, stakeholder communication, and timeline governance to ensure on-time releases and high customer satisfaction.
- Led end-to-end Agile delivery for cross-functional teams, facilitating sprint planning, backlog grooming, stand-ups, reviews, and retrospectives.
- Owned delivery roadmaps, sprint execution, and milestone tracking, ensuring high sprint predictability and release stability.
- Managed revenue forecasting, invoicing coordination, and financial tracking aligned with project milestones.
- Planned resource allocation and capacity forecasting, proactively mitigating risks and resolving delivery blockers.
- Conducted governance meetings and prepared executive dashboards, sprint reports, release notes, and risk/issue logs for leadership visibility.
- Coordinated UAT cycles and production releases, ensuring zero critical defects at go-live and seamless deployment transitions.
- Supported post-production operations and priority escalations, minimizing business impact and ensuring service continuity.

BA/QA Analyst

Dec 2022 – May 2024

iCover Insure Tech

Coimbatore, India

- Managed production incidents and service requests using Zoho Helpdesk, ensuring SLA adherence and timely resolution.
- Performed end-to-end manual testing and developed detailed test cases based on business requirements.

- Designed and maintained automated regression test scripts using Selenium WebDriver to improve testing efficiency.
- Logged, tracked, and resolved defects using Jira to maintain quality standards.
- Coordinated change requests and supported production deployments with minimal operational disruption.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.
- Prepared operational performance reports to monitor system health and issue trends.

Program Intern

Dec 2021 – Apr 2022

Forge Accelerator

- Selected as Program Intern for ProtoSem, supporting admissions assessment, participant screening, and program operations for a startup accelerator initiative.
- Applied behavioral evaluation techniques to track student performance, engagement, and program KPIs.
- Collaborated with cross-functional teams on progress monitoring, reporting, and stakeholder coordination to ensure smooth program execution during the 5-month internship.
